TGS-25 Temperature Sensor
For use with model TG-3 Instrument

Notes and Warnings
1) Connect the first temperature sensor to screw terminal D.
2) If you have fewer than three sensors, leave the spare terminals (E and/or F) disconnected (floating).

Screw Terminal
(On Case Back)
All Wires AWG
14-22 Gauge (0.6 - 1.5 mm)

Temp
Ground
Shield
Connect Together. Attach to “G” terminal.

Sensor Common
Sensor #3 (F)
Sensor #2 (E)
Sensor #1 (D)

(A) DC GROUND
(B) +9.5 to 33.0 VDC
(C) NMEA or External Output

M-TGS-25
As of May 2010
